SalesTouch Case Study:

Rancho Mission Viejo AN INTERGENERATIONAL COMMUNITY

The Community:

Rancho Mission Viejo is a 23,000 acre master planned, intergenerational community in Southern Orange County, CA with a ranching history dating back to 1882. Amongst the hustle and bustle of Southern California, The Ranch offers a unique way of life with 17,000 acres of permanent open space, agriculture including an orchard with thousands of avocado and lemon trees, the last working cattle ranch in Orange County, a full calendar of family events and many first class amenities. When the first village of Sendero opened in Summer 2013, it set the trend for planned, intergenerational communities with the addition of the age qualified enclave of Gavilan to its single- and multi-family home offerings. Rancho Mission Viejo was named the 2013 Master Planned Community of the Year by the National Association of Homebuilders.

Marketing Objective:

Rancho Mission Viejo's objectives for the Guest House, which serves as a welcome center and starting point for home shoppers interested in life at Sendero, was to provide visitors with interactive tools to explore the extensive history and unique community lifestyle of the Ranch, introduce the eight homebuilders offering over 1,100 homes in 11 distinct neighborhoods and collect prospect registration data to share with community builders.

Four separate SalesTouch interactive touchscreen presentations were designed and installed in an appropriately themed section of the Guest House. RMV utilizes the individual presentations as a way to encourage home shoppers to engage with the four distinct selling aspects of the community: Ranch history, Ranch lifestyle and the homes offered in both Sendero and Gavilan.

CPS also developed an iOS and Android SalesTouch app to provide mobile registration and RMV information both onsite and via download. The free app provides an interactive community map, news and events, builder floor plans/elevations and a one-stop registration feature. The registration data is collected for use in CPS' CRM 2.0 application and disseminated to the developer and builders via email, web services and weekly reports. The Guest House offers 20 iPads for easy access to the app, as well.

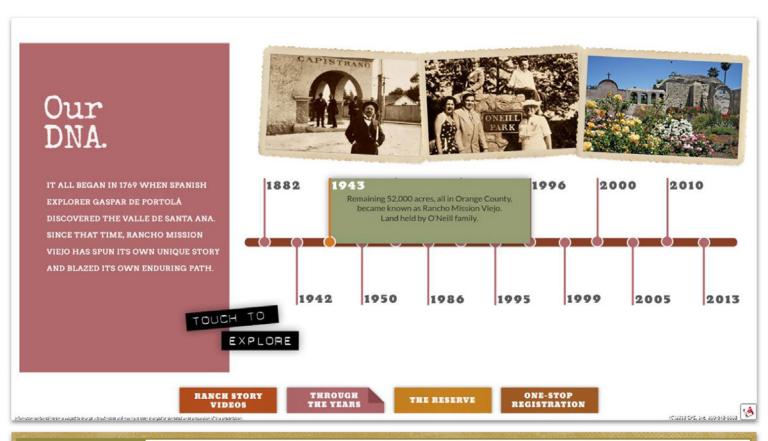

To learn more about SalesTouch, please contact us at (800) 648-6608 or at sales@cpsusa.com.

Ranch History

The Ranch History area of the Guest House uses a 46" interactive touchscreen to display Ranch story videos about its history and its future, highlight key events throughout the years, introduce native habitat information and collect prospect registration.

Ranch Life

This area of the Guest House uses a 32" interactive touchscreen to portray Ranch lifestyle through videos about everything from agriculture to the annual rodeo. Home shoppers also learn about Ranch conservation efforts, explore local points of interest and have another opportunity to register their interest.

SCHOOLS

The Homes

Home shoppers can browse each builder's floor plans, room options and elevations. Community-specific amenities are available to explore, as well.

RMV App

Home shoppers can use one of the 20 iPads included in the Guest House, or download the free app on their own iOS or Android device to view maps, floor plans and elevations.

RMV App

The RMV app, as well as all four presentations on the larger touchscreens, includes a registration feature. The data is collected in CPS' CRM 2.0 MS SQL database and shared with the builders.
